Fall 2015

1. Model-View-Controller Design Pattern:

a. Description:

(Not required)

b. Design Pattern:

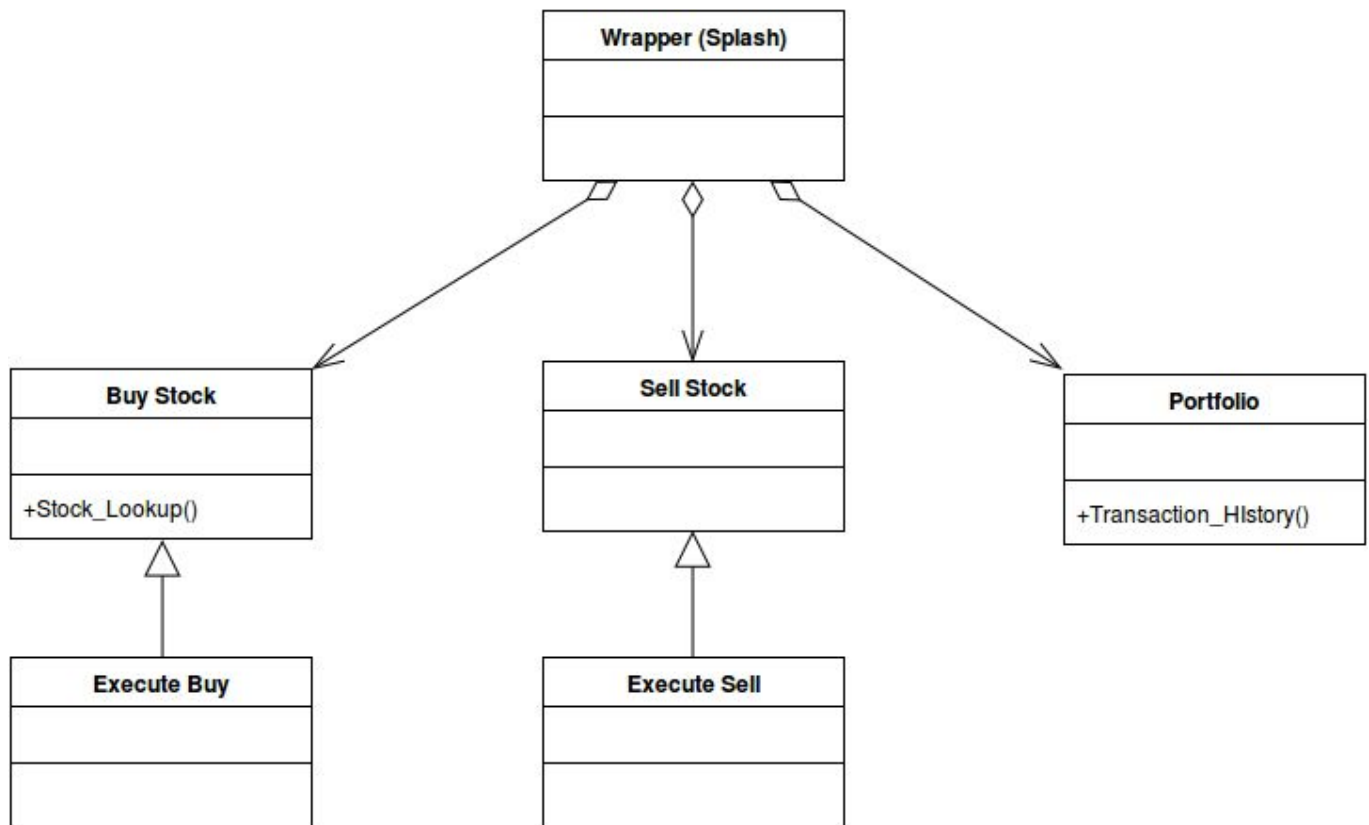

2. Facade Design Pattern:

a. Description:

In the Facade Design Pattern the user is presented with a unified interface to a set of interfaces in a subsystem. In this particular implementation the interfaced subsystem is the entire system with the splash page serving as the single interface to all the subsequent functionality the rest of the system offers.

b. Design Pattern:
